I would also suggest you choose healthy meals throughout your challenge week, as well, but this is not required for this challenge. Choosing healthy meals will only compliment your smoothies and keep you coming back for healthy, nutritious whole foods to fuel your body with! We will start with the smoothies, and you'll be so hooked on feeling fabulous that I know it will bleed into your other daily meals. This is how it works when you start feeling great. Can you even wait?! I'm thrilled for you.

Smoothie Tips

- **Blend your smoothie in stages!** Blend your liquid + greens together to avoid any clumpy leafy greens floating around in your smoothie. Once you blend your liquid + greens together to a great consistency, add in your fruits + remaining ingredients and blend them all together into a delicious, smooth treat.
- **Plan ahead.** If you are crunched for time, put your ingredients together the night before and store them in the fridge. A ziplock bag, Tupperware container, mason jar – whatever you have in your cabinets that will do the trick.

- **Use frozen fruit.** Instead of using ice to make your smoothie your desired consistency, use one of your fruit ingredients frozen.
- **Choose organic.** As much as possible, have your ingredients be organic. Local is even better. A trip to the Farmers Market will be fun, go for it!
- **Change things up.** Rotate your greens. If you use kale today, use spinach tomorrow (you get my drift) – and switch out any ingredients that may not tickle your fancy. Make your smoothie yours so that you will love and enjoy it. You will be much more likely to have a smoothie every day if you do not dread drinking it!
